Our ref: A.1629/SB

Dear Mr. Sparrow,

The JIB is an impartial organisation which sets the standards for employment, welfare, grading and apprentice training in the electrical contracting industry.

Our work is targeted at improving the industry, its status and productivity.

Our membership comprises the UK's largest electrical contractors to the SMEs who make up the bulk of our members.

Together, they benefit from a 'one-stop-shop' which takes care of employment matters, a comprehensive health and benefits scheme, and unique access to markets other contractors cannot reach.

In setting the standards for training, competence and terms and conditions of employment, the JIB has helped its members to maintain stability in the workplace and offer employment conditions that attract, train and motivate the best operatives.

As a result, JIB membership benefits the company and the employees, and assures clients that they are engaging qualified staff, with technical competence and customer service which only a motivated workforce can provide.

Established in 1968 by the Constituent Parties: The Electrical Contractors' Association and Unite the Union

The JIB recognises the EAL L4 Award in the Design and Verification of Electrical Installations.

This qualification is for learners who wish to obtain an understanding of the concepts, processes and practices involved with the design, construction management and the initial verification of electrical installations.

The emphasis is on the safe and ergonomic design on an electrical installation which complies with relevant statutes, regulations; industry standards, and is in accordance with sound electrical engineering practices.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Steve Brawley', with a long horizontal flourish extending to the right.
