To whom it may concern

Letter Support:

We are happy to support the development of the following qualification and for the qualification to be submitted to Ofqual for accreditation to the Regulated Qualifications Framework (RQF):

Title	Credit value	Guided Learning	Total Qualification Time
EAL Level 3 Technical Extended Diploma in Engineering Technologies	148-149	1095	1480

We provide our support to EAL and recognise that the following qualification:

- Prepares the learner for further learning or training and develops knowledge and skills to a standard that can be reasonably expected of learners in full time education and employment.
- Provides learners with suitable progression into related industry recognised qualifications and subsequent entry into an occupation in the engineering sector.
- Provides learners with suitable progression to a higher level course.
- Countries offered in: England, Wales and Northern Ireland.
- Main and sub-purposes: B/B2 - Prepares the learner for further learning or training and develops knowledge and skills in a subject area.
- Age ranges the qualification is offered to 16-18, 19+ (England, Wales and NI).
- Subject area of qualification: 4.1Engineering.

In our opinion, the content and size of this qualification is appropriate and valuable for learners undertaking an engineering apprenticeship, considering moving into the engineering sector or wanting to progress to a higher level course.

Yours faithfully

Marc Tothill

Programme Manager for Extended Diploma in Electrical/Electronic Engineering
