

To whom it may concern

**Letter of Support:**

ATG Training is the premier UK Provider of Technical Training within the Cycle Industry, providing both SFA Apprenticeship and Commercially funded NVQ and VRQ training from our 3 Training Facilities in Stafford, Aylesbury and London.

Since our founding in 1967 we have worked within the Engineering sector to deliver Technical Training that underpins the future of the industry, both in general Engineering and in the more specialised Cycles Industry, for whom we have consistently provided training to the highest standard using the QCCM framework as a basis for training and assessment.

These new QCCM Modules are now up to date with all the latest development, standards and industry specifications, and as such are a considerable step forwards in enabling us to deliver great training to the next generation of Cycle Mechanics.

Our mission is to be Outstanding in our field, which is the Technical Training of Engineers and Mechanics working within the UK Cycle Industry, as such we provide our support to EAL and recognise that the following qualification:

Title	Credit value	Total Qualification Time
EAL Level 2 Certificate in Cycle Maintenance	25	250

- Develops and confirms specialist knowledge and skills that are relevant to an occupation in the sector, to a standard that can be reasonably expected of learners in full time education and employment.
- Provides learners with a suitable progression into related industry recognised qualifications, advancement from related industry recognised qualifications and subsequent entry into an occupation in the engineering sector.
- Country or countries offered in: England, Wales and Northern Ireland
- Main and sub-purposes: B2 Develop knowledge and/or skills in a subject area and C2 Prepare for employment in a specific occupational area
- Age ranges the qualification is offered to: 14-16, 16-18, 18+, 19+ (England, Wales and NI)
- Subject area of qualification: 10 Engineering and Manufacturing, Subsector 10600 Maintenance
- Operational start date: September 2016

We are happy to support the development and for the qualification to be submitted to Ofqual for accreditation to the Regulated Qualifications Framework (RQF).

Yours faithfully
