

14 – 16 Technical Awards

We are happy to support in principle the inclusion of the following qualifications for the 2017 and 2018 performance tables:

- **601/4560/2** **EAL Level 1 Foundation Certificate in Engineering Technology**
- **601/4566/3** **EAL Level 2 First Diploma in Manufacturing Technologies**

The qualifications are accredited by Ofqual with clear aims and purpose showing how learners achieve a recognised industry qualification and EAL has clearly demonstrated how they meet the Department for Education technical guidance for the 2015 teaching year, incorporating the full requirements together with a range of assessments which include external assessment, synoptic assessment and are graded.

We believe that these qualifications are appropriate for study at 14 – 16 and successful completion of this qualification will enable students to progress onto a wide range of academic and vocational post 16 options. As such, these will be considered equally alongside GCSE's for entry to post-16 courses.

We are pleased to confirm that we consent to our name and logo being made publicly available on the DfE and EAL websites confirming our support as outlined above.

Yours sincerely

Ian Minor
