

Date 28 June 2016

Michael Scarrott
Product Specialist
EAL
3365 Century Way
Thorpe Park
Leeds
LS15 8ZB

Dear Michael

Letter of support for the inclusion of new units into the qualification structures of:

- EAL Level 2 Certificate/Diploma in Engineering and Technologies - 601/5670/3, 601/5669/7
- EAL Level 2 First Certificate/First Diploma in Engineering and Technology - 600/6867/X, 600/6868/1

NAC Group is happy to support EAL's request for the inclusion of the following units into the structure of the above qualifications:

- Applied mathematics in engineering
- Business improvement techniques
- Leading a team in engineering
- Plan and carry out a project in engineering
- Engineering manufacturing techniques
- Engineering design techniques
- Marketing an engineering product
- Additive manufacturing (3D printing)

In our opinion, the content and size of these units are appropriate and valuable for learners and will allow learners to develop the knowledge and skills of the practices and processes of engineering technology.

The inclusion of the units does not adversely affect the overall structure of the qualifications nor disadvantage any learners who may have previously completed any of the qualifications.

Yours faithfully

A handwritten signature in blue ink, appearing to read "D. Snaithe".

Dean Snaithe
