Dear Mr Clark,

Please accept this letter as our continued support for the qualifications listed below and for submission to the Skills Funding Agency (SfA).

600/6891/7 Certificate in Plumbing & Heating 2 (QCF)

600/6726/3 Dip Plumbing & Heating 2 (QCF)

600/8552/6 Dip Plumbing 1 (QCF)

We have been delivering these qualifications since 2011 and we continue to see significant levels of support from our learners and employers for these qualifications which enable learners in the 16–18+ and 19+ age range to develop specialist knowledge and skills relevant to employment in this sector.

In our opinion, the content and size of these qualifications are appropriate and valuable for learners considering moving into this sector and should allow learners to develop the skills and knowledge they will need to progress into more specialist L3 plumbing and heating qualifications.

We believe a learner who achieves one of these qualifications should be effectively prepared for related job roles such as a Gas Engineer, Apprenticeship, training or higher education courses.

We are pleased to confirm that we consent to our name and logo being made publicly available on the SfA and EAL websites confirming our support as outlined above.

Please do not hesitate to contact us if you have any further queries or require any further information.

Yours sincerely

David Quinton

Head of Department Plumbing/Electrical.
