

## Level 2 Award in

# Employment Rights and Responsibilities for New Entrants into the Science, Engineering and Manufacturing Sectors

## Qualification Specification

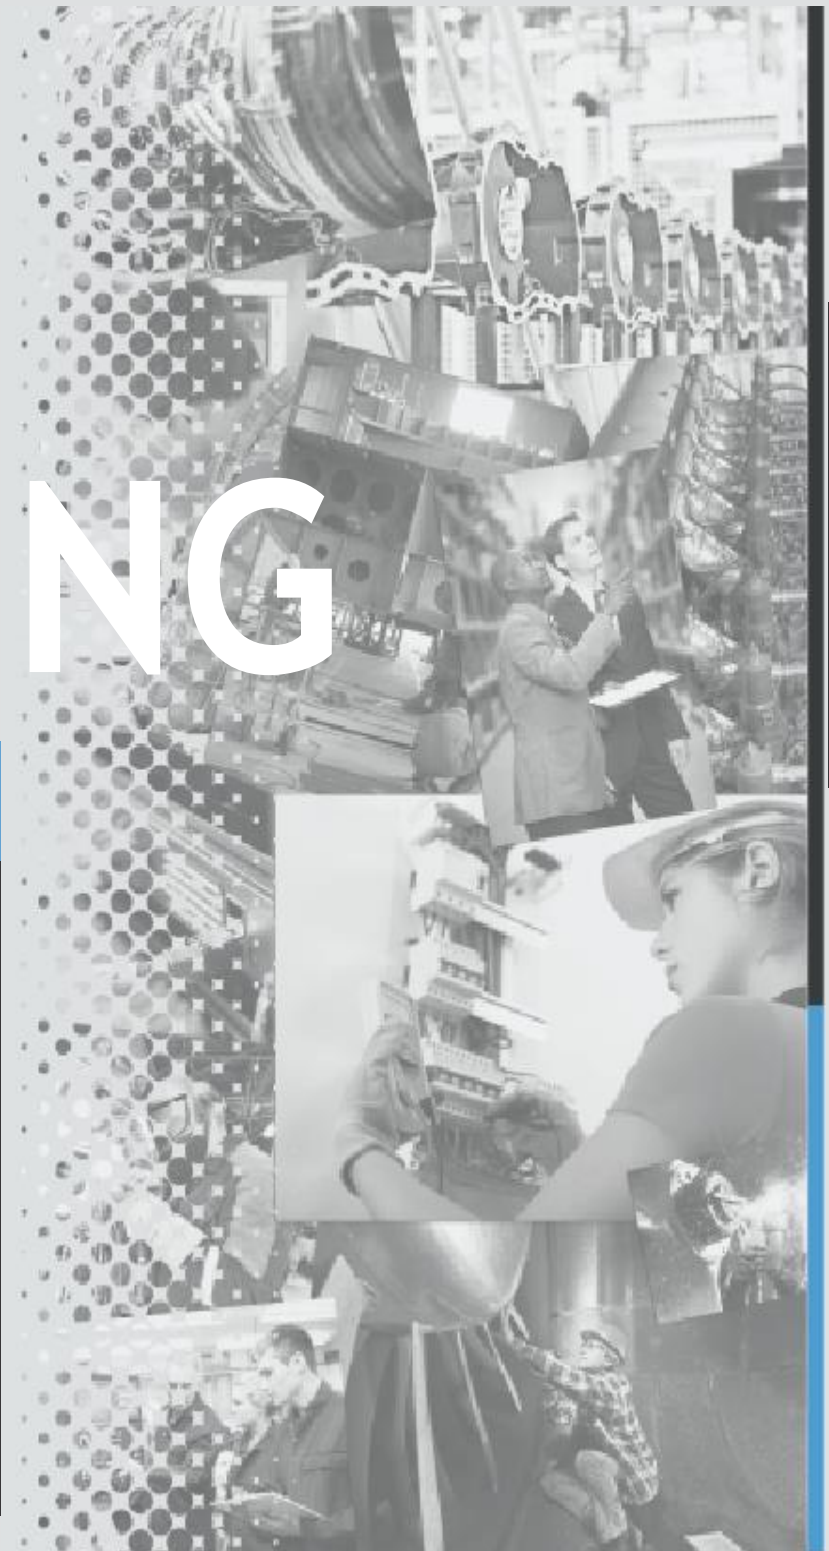

### Overview

This qualification has been developed to enable learners to satisfy the requirements of the Sema apprenticeship framework, and to develop the learners' knowledge of Employment Rights and Responsibilities (ERR). It can also be used by employers for new recruits other than apprentices as part of an induction programme.

### Typical Job

The qualification is applicable to a wide variety of engineering occupations

Qualification code:	600/0290/6
Level:	2
Total qualification time:	50 hours
Guided learning hours:	41
Credits:	5
Age Range:	Pre 16, 18+, 19+

## Purpose of the qualification

This qualification was developed with a number of objectives in mind, namely to:

- give the learner a full understanding of the ERR knowledge required by someone working within a science, manufacturing or engineering environment
- impart the fundamental skills of ERR thus provide an important progression route within learner's employment
- provide the science, manufacturing or engineering sectors with a pool of staff with a nationally recognised qualification
- meet the need for an ERR qualification within the Apprenticeship Framework.

## What could this qualification lead to?

This qualification offers many progression opportunities for the learner – from apprenticeships to wider employment.

The qualification can help successful learners to achieve their apprenticeship and progress to higher level work or further study.

## Entry Requirements

Learners must have the potential to achieve the assessment criteria set out in the units.

## How is the qualification achieved?

The learner must present evidence which clearly shows they have met the assessment criteria and learning outcomes.

## What will be assessed?

All evidence submitted by the learner against the assessment criteria.

## How will it be assessed?

The assessment of this qualification is by the satisfactory completion of the questions within the self-study guide which have been reviewed by the delivery staff to achieve the qualification.

## Structure

This qualification has 41 guided learning hours (GLH) and 5 credits. It has a total qualification time of 50 hours which is the notional time required by the learner to complete the qualification. This will be achieved when the learner has successfully completed the following unit:

EAL code	Title	Level	Credit value	Ofqual code
QERR2/001	Employment Rights and Responsibilities for New Entrants into the Engineering and Manufacturing Industries	2	5	M/502/8282
