Dear Kevin,

Electrician Courses 4U are specialists in providing quality training exclusively for the electrical market. Our courses are specifically aimed at those with little or no knowledge as well as those that are looking to enhance their existing skills or qualifications. We firmly believe from customer feedback over a number of years that we consistently deliver high quality training and are continuously looking to improve our service.

Electrician Courses 4U support the EAL Level 2 Award in Fundamental Inspection, Testing and Initial Verification.

This qualification is for learners who wish to obtain the fundamental knowledge and practical skills involved with inspection and testing of simple single phase electrical installations in accordance with statutory and non-statutory requirements. It is useful for electricians who may need refreshing on knowledge and practical skills prior to undertaking the EAL Level 3 Award In the Initial verification and Certification of Electrical Installations.

The qualification will allow learners to develop skills and knowledge in order to progress onto more specialist qualifications.

Yours Sincerely,

A handwritten signature in black ink, appearing to read 'Nigel Best', written in a cursive style.

Dear Kevin,

Electrician Courses 4U are specialists in providing quality training exclusively for the electrical market. Our courses are specifically aimed at those with little or no knowledge as well as those that are looking to enhance their existing skills or qualifications. We firmly believe from customer feedback over a number of years that we consistently deliver high quality training and are continuously looking to improve our service.

Electrician Courses 4U support the EAL Level 3 Award in the Building Regulations for Electrical Installations in Dwellings.

This qualification is for learners who wish to obtain an understanding of the of the building regulations and approved documents which are applicable to electrical installations in dwellings. It covers the requirements in both England and Wales. It follows the industry guidance as given in the IET Electrician's Guide to the Building Regulations.

The qualification will allow learners to develop skills and knowledge in order to progress onto more specialist qualifications and/or operate in accordance within the requirements for electrical installations in dwellings.

Yours Sincerely,

Nigel Best
