**Letter of Support:**

Dear EAL,

Allianz Engineering Construction & Power is the UK's largest independent Engineering Inspection Company.

Since our founding in 1905 under the name of Cornhill, we have provided a variety of insurance related services to personal and commercial markets and Engineering Inspections Services to help to improve health and safety in the workplace. Following a merger with Ajax in 1997, and then re-branded as Allianz, we have become the widely recognised leading provider of Engineering Inspection services in the UK. We are very proud of the high quality of training that we provide and this qualification is a key part of our personal development portfolio.

The ESC Units are up to date with the latest developments, standards and industry specifications, and as such will enable us to deliver high quality training to the next generation of Engineer Surveyors.

Our Mission is to be the outstanding competitor in our chosen markets, as such we provide our support to EAL and recognise that the following new qualification:

Title	Credit Value	TQT
EAL Level 4 Diploma in Engineer Surveying	77	770

- Develops and confirms specialist knowledge and skills that are relevant to an occupation in the sector, to a standard that can be reasonably expected of learners in full time education and employment.
- Provides learners with a suitable progression into related industry recognised qualifications, advancement from related industry recognised qualifications and subsequent entry into an occupation in the Engineer Surveying sector.
- Country or countries offered in: England.
- Main and sub-purposes: B2 Develop knowledge and/or skills in a subject area and C2 Prepare for employment in a specific occupational area.

- Age ranges the qualification is offered to: 19+ (England).
- Subject area of qualification: 4.1 Engineering.
- Operational start date: December 2019.

We are happy to support the development and for the qualification to be submitted to Ofqual for accreditation to the Regulated Qualifications Framework (RQF).

Yours faithfully

Mark Stephenson
