- Equipment Installation
- Commissioning
- Traction Lift Installation
- Hydraulic Lift Installation

ENGINEERING & MANUFACTURING

# EAL Level 3 SVQ in Installation and Commissioning Suite at SCQF Level 6

QUALIFICATION CODE: various

Credit Value:	
Job Roles:	Installation and commissioning technician (heavy plant equipment), installation and commissioning technician (light equipment)

## Overview

Recognised for the Scottish Credit and Qualifications Framework (SCQF), these competence qualifications cover the advanced skills and knowledge to work effectively in a wide range of areas within installation and commissioning. Successful candidates will:

- develop skills and competencies relating to their specific role
- meet the competence requirement of Semta's engineering Modern Apprenticeship framework
- gain a qualification to support their progress to further learning and greater responsibility in the workplace.

## Who are the qualifications suitable for?

- apprentices working to achieve a Semta Modern Apprenticeship
- new or existing workers in the aeronautical engineering industry who would like to work towards a relevant SVQ Level 3 qualification.

## Qualification structure

Candidates can choose from four job-specific qualifications, covering a wide range of areas including equipment installation, commissioning, traction lift installation and hydraulic lift installation. Those who do not complete a full qualification can claim a Certificate of Unit Credit for the units achieved, giving proof of their ability and enabling them to complete the qualification at a later date.

The full qualification structure is available from [www.eal.org.uk](http://www.eal.org.uk)

## Related qualifications

These qualifications support progress to a number of other EAL qualifications, including those shown below. For the full range of EAL qualifications, please visit [www.eal.org.uk](http://www.eal.org.uk)

EAL Level 3 SVQ in Installation and Commissioning at SCQF Level 6

EAL Level 3 SVQ in Engineering Maintenance

EAL Level 3 SVQ in Mechanical Manufacturing Engineering

## Does it qualify for funding?

These qualifications form part of the engineering Modern Apprenticeship framework. They may also be eligible for other funding support – for more information, please contact the relevant funding authorities.

## How is the qualification delivered?

Competence qualifications are undertaken in the candidate's workplace.

## How is the qualification assessed?

Assessment will be carried out in the workplace or other appropriate environment via observation and the collation of evidence in a portfolio.

## How to register

- **Centres** need to meet EAL's approval criteria, and can apply to add this qualification to their remit online or by completing a paper-based form.
- **Employers** can apply to become an EAL Centre or access these qualifications through an existing Centre.
- **Learners** can work towards EAL qualifications through an EAL Centre – such as a college or training provider – in your region.

## Why choose EAL?

EAL is the specialist, employer-recognised awarding organisation for the engineering and manufacturing, building services and related sectors. It is the only awarding organisation to invest in the industries it serves and the careers of those who work within them.

Through its long-term partnership with industry and focus on its core sectors, EAL has built unrivalled knowledge and understanding of employer skills needs. This results in qualifications that carry weight and respect with employers and deliver real career benefits for learners.
