

Sector and Standard Qualification List

Apprenticeships 2023

We have developed a comprehensive overview of EAL sector and standard qualifications that support Apprenticeship Standards being delivered in England.

It outlines the qualifications EAL offers against various standards, giving details of the EAL qualification titles and Ofqual codes for providers to register learners against.

When selecting units from the EAL qualifications, please read the relevant standard to ensure the correct units have been selected.

Not all standards are listed in this overview, and qualifications offered by EAL may be used to cover the Knowledge, Skills and Behaviours within other standards. Please refer to www.eal.org.uk for more information.

Note: When selecting units from the qualifications, it is important to read the relevant standard; this will ensure the correct units have been selected to meet the criteria of the standard.
